1. Claims 1-11 and 13-17 are pending.

Oath/Declaration

2. The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because: it is unsigned by each of the inventors.

Specification

3. The disclosure is objected to because of the following informalities: some terms on **page 2, line 24**, and **page 6, line 23** of the specification are illegible.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1-11 and 13-17 rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the

invention. In **claim 1**, the reference to chambers **130** (see lines 2 and 5), **131** (see lines 3 and 5), and walls **125a**, **125b** (see line 4) are separate embodiments of the invention as disclosed on page 5, lines 16-17, page 7, lines 13-25 and Figure 5, hence do not have the undissolved releasable part. It is suggested that reference to these numbers be deleted to overcome this rejection. The same is true for the chambers **130**, **131**, and walls **125a** and **125b** of **claim 13**. The remaining claims, being dependent upon claim 1, are rejected as well.

6. Claims 3 and 5 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 3 lacks support for “the container (201)” (see line 1), “the first wall (225)” (see line 3) and “the releasable part (225)” (see line 5) with respect to claim 1.

Claim 5 lacks support for “the material thinning” (see line 2) with respect to claim 4.
